

# FIMP-XL-8XSCD-50-MM

## 8-PORT SPLICE BOX

### MULTIMODE (MM)

Item No.: 422.414

Actual product may vary

#### DESCRIPTIONS OF FUNCTIONS

The 8-port splice box (or patch panel) is the ideal solution for the transfer point of the fiber optic field wiring. The box is fully fitted with the components needed: splice tray, couplings, pigtails and cable gland. Because of the compact and robust design, it is ideally suited for industrial environments.

#### TECHNICAL DATA

FX Ports	
Number	8
Connector	SC
Optical fiber	Multimode
Optical fiber type	50/125 $\mu\text{m}$
Cable entries	Cable gland M20 (for cable with max. 13.8 mm outer diameter)
Insertion loss	$\leq 0.3$ dB/km
Dimensions (H x W x D):	138 x 72 x 128 mm
Mounting:	DIN rail
Operation temperature:	-40 ... 75 °C
Humidity:	10 ... 95 % RHD, non-condensing
Weight:	860 g
Housing:	Stainless steel, powder coated
Protection class:	IP20
