Confirmation: implementation of REACH regulation

On June 1, 2007, Regulation (EC) No. 1907/2006 concerning the Registration, Evaluation, Authorization and Restriction of Chemicals 1 (abbreviation:"REACH") entered into force.

We manufacture and sell products that are defined as "articles" and not as "substances" or "mixtures" in accordance with Title I, Chapter 2, Article 3 (Definitions ⁽¹⁾) of the "REACH" Regulation. As a "downstream user", meteocontrol GmbH is not subject to the registration obligations for "substances".

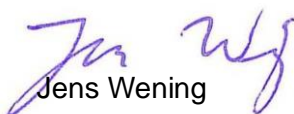

If articles from meteocontrol contain a substance from the so-called "Candidate List" exceeding 0.1% by mass per article, we provide our customers with sufficient information for the safe use of our products. If the substance is present in more than 1 ton/year in all these products, we will inform the European Chemicals Agency accordingly.

The "Candidate List" (list of SVHC ⁽²⁾) is published was updated on January 23, 2024 and currently includes a total of 240 substances. To the best of our knowledge and according to the information provided by our suppliers, our products, their components and packaging do not contain any substances from the 'Candidate List' in concentrations exceeding 0.1% by mass. One exception is the use of lead, CAS 7439-92-1 ⁽³⁾. This substance, which has been regulated by the RoHS Directive since 2006, is included on the SVHC list. We also do not use substances listed in Annex XIV or in non-authorized applications as per Annex XVII.

According to Article 7 Paragraph 1b, substances in articles are subject to registration if they are released under normal or reasonably foreseeable conditions of use.

This is not the case with lead-acid batteries and electronic components sold by meteocontrol.

Best regards
meteocontrol GmbH

Jens Wening

ROHS STATEMENT
Declaration of Conformity
2011/65/EU (ROHS)

meteocontrol GmbH declares that all manufactured products are RoHS compliant in accordance with Directive 2011/65/EU of the European Parliament and of the Council of 8 June 2011 on the restriction of the use of certain hazardous substances in electrical and electronic equipment.

This applies to the following substances, the concentrations of which must not exceed:

Lead	0.1 %
Mercury	0.1 %
Cadmium	0.01 %
Hexavalent chromium	0.1 %
Polybrominated biphenyls (PBB)	0.1 %
Polybrominated diphenyl ethers (PBDE)	0.1 %
Bis(2-ethylhexyl) phthalate (DEHP)	0.1 %
Butyl benzyl phthalate (BBP)	0.1 %
Dibutyl phthalate (DBP)	0.1 %
Diisobutyl phthalate (DIBP)	0.1 %

Best regards
meteocontrol GmbH

Jens Wening
